Scientist Research Form

Explore the Past Enrichment Group Project

What is your name?

Jada

What is the name of the scientist you are researching?

Sue Hendrickson

What did your scientist discover?

The most complete, largest, and best preserved T rex skeleton ever found.

How did your scientist make his/her discovery?

By exploring a dig site for about four hours until she found the large bones.

What was significant about your scientist's discovery?

It helped people learn more about what the largest size a T rex can be, and it was the most complete fossil of a T rex so people could know about how it lived.

Did your scientist face any obstacles during their life? How did they overcome them?

No obstacles

How did your scientist change or contribute to what we know about the past? Give specific examples.

The fossil helped us learn more about T rex since it was the most complete skeleton
